HIGHLIGHTS

- 185 Inspections completed (include plan reviews, scope of work, commercial compliance checks)

- 81 individuals trained in the use of fire extinguishers

- 5 Fire Investigations

- A Successful National Night Out Kickoff!

Moving Forward-

We at the Fire Marshal have been working diligently on the preparedness for October Fire Prevention Month, doing your daily duties, inspections, public engagements, training, etc. This month is notably different with the hiring of a new Fire Marshal. The FMO team has been excellent at getting the new Fire Marshal up to speed. Moving forward, we will be the Poster contest with the theme being “Plan your escape.” As mentioned in the letter sent out by the Fire Marshal about fire prevention month, there will be several opportunities to engage with the public to teach and let them see what we do. Also, a goal for October will be collecting as many smoke detectors as possible to provide them to the community for the neighborhood clean-up in November.

Also introducing the use of mobile printers. This system will allow the investigators to scan the driver’s license barcode, auto-populate the citation form, print the citation for the motorist, and then electronically send the citations to the courthouse.
