RESOLUTION NO. 2023-04

A RESOLUTION BY THE VICTORIA METROPOLITAN PLANNING ORGANIZATION POLICY ADVISORY COMMITTEE TO ADOPT THE FIRST AMENDMENT TO THE FY 2023 UNIFIED PLANNING WORK PROGRAM (UPWP)

WHEREAS, the Victoria Metropolitan Planning Organization (MPO) Policy Advisory Committee is the transportation planning decision-making body for the Victoria Metropolitan Planning Area; and,

WHEREAS, the Victoria MPO is responsible for developing and submitting the Unified Planning Work Program (UPWP) and any amendments to the Texas Department of Transpiration (TxDOT); and,

WHEREAS, the Victoria MPO recommends the adoption of the proposed amendments to the FY 2023 UPWP.

NOW, THEREFORE, BE IT RESOLVED BY THE VICTORIA MPO POLICY ADVISORY COMMITTEE:

Section 1. That the MPO Administrator is hereby authorized to submit the FY 2023 UPWP Amendment One to TxDOT on behalf of the Victoria MPO Policy Advisory Committee; and,

Section 2. That this resolution shall be effective at the close of public comment period on January 17, 2023.

ADOPTED: JANUARY 10, 2023

I hereby certify that this resolution was adopted by the Policy Advisory Committee of the Victoria Metropolitan Planning Organization in regular session:

BY: [Signature]
JAN SCOTT, CHAIR

BY: [Signature]
MAGGIE BERGERON, VICTORIA MPO ADMINISTRATOR
RESOLUTION NO. 2022-05

A RESOLUTION BY THE POLICY ADVISORY COMMITTEE OF THE VICTORIA METROPOLITAN PLANNING ORGANIZATION ADOPTING THE FY 2023 UNIFIED PLANNING WORK PROGRAM

WHEREAS, the Victoria Metropolitan Planning Organization (MPO) Policy Advisory Committee is the transportation planning decision-making body for the Victoria metropolitan planning area; and

WHEREAS, The Victoria MPO is responsible for developing and submitting the Unified Planning Work Program (UPWP) to the Texas Department of Transportation (TxDOT); and

WHEREAS, the Victoria MPO recommends the adoption of the FY 2023 UPWP via resolution for submittal to TxDOT.

NOW, THEREFORE, BE IT RESOLVED BY THE VICTORIA MPO POLICY ADVISORY COMMITTEE:

Section 1. That the MPO Administrator of the Victoria MPO is hereby authorized to submit the FY 2023 UPWP to TxDOT on behalf of the Policy Advisory Committee; and,

Section 2. That this resolution shall be effective immediately upon adoption.

ADOPTED: MAY 10, 2022

BY: ____________________________
CLINT IVES, CHAIRMAN

I hereby certify that this resolution was adopted by the Policy Advisory Committee of the Victoria Metropolitan Planning Organization in regular session:

BY: ____________________________
MAGGIE BERGERON, VICTORIA MPO ADMINISTRADOR
FY 2023

UNIFIED PLANNING WORK PROGRAM (UPWP)

Victoria Metropolitan Planning Organization (MPO)
Non-Transportation Management Area (Non-TMA)

AIR QUALITY STATUS:
Attainment

The preparation of this report has been financed in part through grant(s) from the Federal Highway Administration and Federal Transit Administration, U.S. Department of Transportation, under the State Planning and Research Program, Section 505 [or Metropolitan Planning Program, Section 104(f)] of Title 23, U.S. Code. The contents of this report do not necessarily reflect the official views or policy of the U.S. Department of Transportation.

Final Approved by the Victoria Metropolitan Planning Organization: May 10, 2022
Final Approved by the Texas Department of Transportation (TxDOT): May 17, 2022
Federal Approval: June 16, 2022

Amendment One Approved by the Victoria Metropolitan Planning Organization: January 10, 2023
Victoria Metropolitan Planning Organization

I. INTRODUCTION

The Federal-Aid Highway Act of 1962 established the continuing, cooperative, and comprehensive regional transportation planning process for urban areas. This legislation required urban areas to create and implement transportation plans to receive federal highway funds. The Federal-Aid Highway Act of 1973 formally established the Metropolitan Planning Organization (MPO) and, required that one be establish for any urbanized area with a population of 50,000 or more people. This legislation tasked MPOs with conducting the urban transportation planning process and allocated federal funds to support the urban transportation planning process. Thus, MPOs became a forum for cooperative regional transportation decision-making.

In 1991, the Intermodal Surface Transportation Efficiency Act (ISTEA) was signed into law, broadening the role of MPOs and states as decision-makers in the development, review, and approval of transportation plans and programs. ISTEA required that recommendations from MPOs long-range transportation plan, the Metropolitan Transportation Plan (MTP), reflect the transportation projects programmed in the MPOs short-range transportation plan, the Transportation Improvement Program (TIP) and, that both reflect realistic expectations of available funding for projects. The Transportation Equity Act for the 21st Century (TEA-21) of 1998 continued the planning provisions of ISTEA, refined previous planning factors into seven, and increased the availability of federal funding for surface transportation.

In 2005, the Safe, Accountable, Flexible, Efficient Transportation Equity Act- A Legacy for Users (SAFETEA-LU) placed a broader emphasis on integrating transportation planning into all modes. SAFETEA-LU promoted the safe and efficient management, operation, and development of surface transportation systems and outlined eight planning factors to consider in the transportation planning process. The Moving Ahead for Progress in the 21st Century (MAP-21) was signed into law in 2012. MAP-21 implemented a performance-based approach to transportation planning to identify the effectiveness of transportation investments.

In 2015, the Fixing America’s Surface Transportation Act (FAST Act) was signed into law and was the first federal law to provide long-term funding for surface transportation. The FAST Act added two planning factors but continued most of the planning provisions of MAP-21. On November 15, 2021, President Biden signed the Infrastructure Investment and Jobs ACT (IIJA) also known as the Bipartisan Infrastructure Bill (BIL). The BIL included modest modifications to the planning process, policy board composition, participants in the process, and contents of the MTP. Among other improvements, the BIL added new planning factors, which can be found, below.

Since its designation in February 1982, the City of Victoria has been the fiscal agent for the Victoria MPO and, serves all of Victoria County. The original decision-making body of the MPO was the Victoria Urban Transportation Planning Committee, which included state, county, and city officials. Today, the Victoria MPO is governed by the Policy Advisory Committee comprised of elected and non-elected officials from the City of Victoria, Victoria County, and the Texas
Department of Transportation (TxDOT). The MPO Policy Advisory Committee is the top-level transportation planning committee providing review, policy guidance, and decision-making for transportation planning efforts in the Victoria Metropolitan Area. The Policy Advisory Committee membership list is in Appendix A.

A. PURPOSE

The FY 2023 Unified Planning Work Program (UPWP) is an annual planning budget which outlines those planning activities that will be undertaken by the MPO, allocates resources to pay for each activity, and maintains consistency from year to year in addressing transportation system issues within the MPO’s planning jurisdiction. The FY 2023 UPWP was developed in accordance with the regulations and provisions set forth in the BIL, the Federal Highway Administration (FHWA), and the Federal Transit Administration (FTA).

In 2012, MAP-21 outlined seven national goals, related to performance measures, for MPO’s to incorporate into the transportation planning process. The goals, outlined below and found in 23 USC § 150, are:

1. **Safety**: to achieve a significant reduction in traffic fatalities and serious injuries on all public roads
2. **Infrastructure Condition**: to maintain the highway infrastructure asset system in a state of good repair
3. **Congestion Reduction**: to achieve a significant reduction in congestion on the National Highway System
4. **System Reliability**: to improve the efficiency of the surface transportation system
5. **Freight Movement and Economic Vitality**: to improve the national freight network, strengthen the ability of rural communities to access national and international trade markets, and support regional economic development
6. **Environmental Sustainability**: to enhance the performance of the transportation system while protecting and enhancing the natural environment
7. **Reduced Project Delivery Delays**: to reduce project costs, promote jobs and the economy, and expedite the movement of people and goods by accelerating project completion through eliminating delays in the project development and delivery process, including reducing regulatory burdens and improving agencies’ work practices.

In 2015, the FAST Act built upon MAP-21 and established ten tasks for MPO’s incorporate into the transportation planning process. These ten tasks helped to ensure a continuous, cooperative, and comprehensive evaluation of the transportation system in relation to the needs of the MPO. The FAST Act’s ten tasks, found in 23 CFR §459.306, are:

1. Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency;
2. Increase transportation system safety for motorized and non-motorized users;
3. Increase transportation system security for motorized and non-motorized users;
4. Increase accessibility and mobility of people and freight;
5. Protect and enhance the environment, promote energy conservation, improve quality of life, and promote consistency between transportation improvements and state and local planned growth and economic development patterns;
6. Enhance the integration and connectivity of the transportation system, across and between modes, for people and freight;
7. Promote efficient system management and operation;
8. Emphasize the preservation of the existing transportation system;
9. Improve the resiliency and reliability of the transportation system and reduce or mitigate stormwater impacts of surface transportation; and
10. Enhance travel and tourism.

According to the BIL, MPOs shall develop and implement a performance-based approach to transportation decision-making. This approach is a continuation of the requirements in prior transportation legislation, like MAP-21 and the FAST Act. Performance measures are established at the state and MPO level and can assist in tracking the improvements towards accomplishing the desired outcome of the region. The MPO intends to continue to develop specific performance targets in coordination with the state, TxDOT, and its local transit provider, Victoria Transit. The Victoria MPO’s performance targets will continue to be considered throughout the development of all plans, including the MTP, TIP, and UPWP. The targets identified in this section will be considered throughout the development and selection of projects.

The Victoria MPO recognizes the importance of public involvement and implements procedures to ensure that the public is fully informed about transportation issues and is given reasonable public access to transportation plans and project documents. The MPO’s Public Participation Plan takes into consideration all transportation providers within the Victoria MPO’s boundaries and involves citizens in the transportation planning process in accordance with the BIL, the FAST Act, and MAP-21.

B. DEFINITION OF AREA
Located on the South-Central Texas Coast, the Victoria MPO is located thirty miles inland from the Gulf of Mexico. The MPO’s boundary line was amended in 1994 to include all of Victoria County, since then the MPO’s Metropolitan Area Boundary has coincided with the Victoria County line. The City of Victoria is the only incorporated community and Census designated urbanized area within the Victoria MPO’s study area. Maps displaying the Victoria MPO’s location and boundaries can be found in Appendix B.

C. ORGANIZATION
The only committee of the Victoria MPO is the Policy Advisory Committee which serves as the executive committee and is responsible for guiding the transportation planning process, ensuring proper coordination between transportation modes and sub-areas, cooperatively establishing transportation needs, and approving proposed plans and projects. The Committee is comprised of ten voting members representing the City of Victoria, Victoria County, TxDOT,
the Victoria Regional Airport, and the Victoria County Navigation District. The roster for the Victoria MPO Policy Advisory Committee is included in Appendix A.

D. PRIVATE SECTION INVOLVEMENT
In previous years, the Victoria MPO has utilized services for traffic counts, intersection studies, a signal timing coordination, the Thoroughfare Master Plan (TMP), and the Metropolitan Transportation Plans. In FY 2022, the Victoria MPO hired a consulting firm to assist in the development of a demographic analysis and forecast for the update to the MPO’s travel demand model and is expected to complete their work with the Victoria MPO during FY 2023.

E. PLANNING ISSUES & EMPHASIS (PEAs)
Planning emphasis areas (PEAs) are policy, procedural, and technical topics that federal planning fund recipients must consider when preparing work programs for metropolitan and statewide planning and research assistance programs. In addition to the federal PEAs, the Victoria MPO has identified planning issues and emphasis areas that demonstrate the key transportation planning issues facing the metropolitan planning area. The PEAs addressed in the Victoria MPO’s FY 2023 UPWP are listed below.

- **The Metropolitan Transportation Plan (MTP):** The MTP is a 25-year long, multimodal, transportation plan and it provides the basic framework for the region’s transportation planning needs. The Victoria MPO’s 2045 MTP was adopted on April 30, 2020 and identifies the community’s transportation needs over the next 25-years (2020 to 2045), establishes priorities for funding those improvements, and charts a course for meeting the community’s vision. Updates to the MTP will be part of the planning process and changes will be incorporated as they are needed.

- **The FY 2023- 2026 Transportation Improvement Program (TIP):** The TIP is a short-range, four-year program that summarizes the Victoria MPO’s transportation projects that have secured funding. The TIP is updated every two years and be submitted to TxDOT as part of the Statewide TIP (STIP). Federal funds cannot be expended on a project unless the project is listed in the MTP, and all projects listed in the TIP must be consistent with the projects listed in the MTP. Updates to the TIP will be part of the planning process and will be incorporated into as needed.

- **Travel Demand Model (TDM):** The MPO began the process of updating the TDM in 2022 and will include the MPO working closely with TxDOT, the Texas of Transportation Institute (TTI), and the selected consultant for the MPO’s demographic analysis. The TDM is built to simulate potential transportation scenarios that factor in the current transportation network and demographic data. The TDM plays a vital role in informing the MPO’s long-range transportation plan, the MTP. The MPO will continue to update the TDM until development on the 2050 MTP begins.

- **MAP-21 Implementation- Transition to Performance-based Planning and Programming:** Continue to develop and incorporate performance-based planning criteria, in coordination
with TxDOT, to further develop and enhance the performance management approach to transportation planning.

- **Ladders of Opportunity: Access to Essential Services** - As part of the transportation planning process, MPOs and state DOTs are encouraged to identify transportation connectivity gaps in accessing essential services.

- **Tackling the Climate Crisis: Transition to a Clean Energy, Resilient Future** - Help to ensure the national greenhouse gas reduction goals of 50-52% below 2005 by 2030, and net-zero emissions by 2050, and increase resilience to extreme weather events and other disasters resulting from climate change. The Victoria MPO addresses this through Task 3, Performance Measures and MPO Transit Planning.

- **Equity and Justice in Transportation Planning** - Advance racial equity and support for underserved and disadvantaged communities to help ensure public involvement in the planning process and that plans reflect various perspectives, concerns, and priorities from affected areas. The MPO addresses this planning emphasis area throughout the UPWP, but primarily in Task 1, Subtask 1.4.

- **Complete Streets** - Review current policies, rules, and procedures to determine their impact on safety for all road users, including providing provisions for safety in future transportation infrastructure, particularly those outside automobiles. To be considered complete, roads should include safe pedestrian facilities, safe transit stops, and safe crossing opportunities on an interval necessary for accessing destinations. The Victoria MPO addresses this through many Tasks, including Task 3.2, Performance Measures, and Task 5, Subtask 5.2.

- **Public Involvement** - Conduct early, effective, and continuous public involvement that brings diverse viewpoints into the decision-making process, including integrating virtual public involvement tools while also ensuring access to opportunities for individuals without access to computers and mobile devices. The Victoria MPO addresses this PEA throughout the FY 2023 UPWP and specifically in Tasks 1 and 3.

- **Strategic Highway Network (STRAHNET)/ U.S. Department of Defense (DOD) Coordination** - Coordinate with the U.S. Department of Defense representatives in transportation planning and programming processes on infrastructure and connectivity needs for STRAHNET routes and other roads that connect to DOD facilities. The MPO will continue to coordinate with local, regional, and federal partners to address this PEA. Tasks 3 and 4 address short and long-range planning.
• **Federal Land Management Agency (FLMA) Coordination**: Coordinate with FLMAs in transportation planning and programming processes on infrastructure and connectivity needs related to access routes and other public roads that connect to Federal lands, including exploring opportunities to leverage transportation funding to support access and transportation needs of FLMAs before projects are programmed into the TIP. The MPO will continue to coordinate with local, regional, and federal partners to address FLMA coordination. The MPO specifically addresses this in Task 3, Subtask 3.1.

• **Planning and Environmental Linkages (PEL)**: Implement Planning and Environmental linkages as part of the overall transportation planning and environmental review process. The MPO addresses this PEA in Tasks 3 and 4, as a short and long-range planning emphasis area.

• **Data in Transportation Planning**: Incorporate data sharing and consideration into the transportation planning process through developing and advancing data sharing principles among the MPO, State, regional, and local agencies. The MPO addresses this PEA throughout the FY 2023 UPWP, but specifically in Task 2, Subtask 2.1 and 2.2, GIS and Demographic Data. Additionally, the MPO addresses this PEA in Task 5, Subtask 5.1, where the MPO will be conducting a sociodemographic analysis for the upcoming travel demand model refresh.
II. TASK 1.0- ADMINISTRATION AND MANAGEMENT

**REMANDER:** Equipment purchases over $5,000 must comply with 2 CFR §200: “Acquisition cost means the cost of the asset including the cost to ready the asset for its intended use. Acquisition cost for equipment, for example, means the net invoice price of the equipment, including the cost of any modifications, attachments, accessories, or auxiliary apparatus necessary to make it usable for the purpose for which it is acquired. Acquisition costs for software includes those development costs capitalized in accordance with generally accepted accounting principles (GAAP). Ancillary charges, such as taxes, duty, protective in transit insurance, freight, and installation may be included in or excluded from the acquisition cost in accordance with the non-Federal entity’s regular accounting practices.”

A. **Objective**
To deliver the plans and programs necessary to administer Federal transportation planning grants and maintain the cooperative, comprehensive, and continuous planning process for the Victoria Metropolitan Planning Organization on a continuing basis. This task includes:

- General administration of the MPO grant,
- Educational development,
- Staff of training,
- Small tools, equipment, and office supply purchases,
- Website maintenance; and,
- The MPO’s Title VI Civil Rights Evaluation and Public Participation Plan.

B. **Expected Products**
The MPO will perform all administrative and management activities required to maintain the transportation planning process within designated planning area, including:

- The Unified Planning Work Program (UPWP),
- Annual Performance and Expenditure Report (APER),
- The Annual Listing of Projects (ALP),
- Facilitation of public meetings and the public participation process,
- Staff attendance at training, educational courses, and meetings,
- The preparation of MPO meeting packets and minutes, and
- The maintenance of the MPO website.

C. **Previous Work**
During the Fiscal Year 2022 the Victoria MPO completed the following:

- The FY 2023 UPWP;
- The 2021 Annual Performance and Expenditures Report (APER);
- The FY 2021 Annual Listing of Projects (ALP);
- Facilitated the MOP Policy Advisory Committee meetings;
- Participated in transportation meetings, training, and conferences;
- Managed the MPO website with up-to-date links to the current MTP, TIP, UPWP, Public Participation Plan, meeting agendas, Policy Advisory Committee information, and other resources; and,
- Managed the administrative and fiscal operations of the MPO.
D. Subtasks

Subtask 1.1: Administration
Prepare and submit all documents necessary to ensure compliance and maintain the continuity of the planning process, including: the FY 2022 Annual Performance and Expenditure Report, the FY 2022 Annual Listing of Projects, and the FY 2023 UPWP; prepare for and conduct Policy Advisory Committee and other needed meetings; complete meeting minutes and documentation; facilitate citizen participation; maintain financial records; and purchase office supplies, materials, furniture, computers, and any related equipment needed to administer the MPO. Any equipment purchase exceeding $5,000 for one unit will require prior approval from FHWA.

Subtask 1.2: Website Maintenance
Maintain the Victoria MPO website, www.victoriampo.org, to provide up-to-date information plans, programs, meetings, and activities.

Subtask 1.3: Travel & Education
Participate in conferences, seminars, meetings, and training opportunities to remain familiar with current regulations and practices related to the transportation planning field as provided by Federal Highway Administration, Federal Transit Administration, Texas Department of Transportation, American Planning Association, and the Association of Metropolitan Planning Organizations (this travel will be out of state), and other related agencies. Prior approval from TxDOT-TPP will be requested for any out of state travel.

Subtask 1.4: Title VI Civil Rights Evaluation
Ensure minority and low-income populations have the opportunity to participate in the transportation planning process; continue to implement procedures that will analyze minority and low-income areas; evaluate the Public Participation Plan on a regular basis to monitor its effectiveness and revise as needed; and hold public meetings in accordance with the public participation plan.

Subtask 1.5: Safety Action Plan
The Victoria MPO will partner with Texas Transportation Institute (TTI) to develop a data driven Safety Action Plan that will identify safety trends in the Victoria MPO Planning Area. The final Safety Action Plan will provide planned safety action and initiatives, prioritize projects and funding sources, provide strategies and countermeasures to increase road safety for all users, with the goal of reducing the number of fatalities and serious injuries within the Victoria MPO Planning Area. The plan will be developed using MPO staff time, reflected in Subtask 1.5, Subtask 2.3, and Subtask 5.3.

$^1$TPF- This includes both FHWA PL-112 and FTA Section 5303 Funds. TxDOT will apply transportation development credits sufficient to provide the match for TPF. As the credits reflect neither cast nor work hours, they are reflected in funding tables.
III. TASK 2.0- DATA DEVELOPMENT AND MAINTENANCE

A. Objective
To create, update, and maintain spatial information, demographic data, and analyses to support MPO planning efforts.

B. Expected Products
The MPO will utilize data collection, Geographic Information Systems (GIS), and TransCAD systems to evaluate existing and new plans, develop needed maps, and complete needed analyses. The data collected, analyzed, and maintained by the MPO for transportation planning purposes are:

- U.S. Census data,
- The MPO’s roadway network,
- Alternative transportation facilities,
- Travel demand model demographic data, and,
- PM1, PM2, and PM3 data for setting performance-based planning measures.

C. Previous Work
In the FY 2022, the Victoria MPO completed the following:

- Maintained data and related maps in GIS for the TIP and MTP,
- Title VI population analyses,
- Maps for needed meetings and presentations,
- Maintenance and updating of demographic data, the roadway network, and traffic analysis zones for the travel demand model.

D. Subtasks

Subtask 2.1: GIS
Continue the partnership with the City of Victoria to develop and maintain the City’s GIS capabilities and databases used for planning purposes for both the City and MPO. The City of Victoria’s GIS Team performs all MPO work associated with GIS, and, thereby, the City is reimbursed by the MPO for their assistance, as seen in the Task 2 1-Year Funding Summary Table.

Subtask 2.2: Demographic Data
Collect, maintain, and verify data for the TDM, Public Participation Plan (PPP), Title VI Plan, and Limited English Proficiency (LEP) Plan. The MPO will hire a consultant to conduct the demographic analysis and forecast for the TDM, however MPO staff will continue to be responsible for maintaining and reviewing demographic data for the study and area.

Subtask 2.3: Safety Action Plan
The Victoria MPO will partner with Texas Transportation Institute (TTI) to develop a data driven Safety Action Plan that will identify safety trends in the Victoria MPO Planning Area. The final Safety Action Plan will provide planned safety action and initiatives, prioritize projects and funding sources, provide strategies and countermeasures to increase road safety for all users,
with the goal of reducing the number of fatalities and serious injuries within the Victoria MPO Planning Area. The plan will be developed using MPO staff time, reflected in Subtask 1.5, Subtask 2.3, and Subtask 5.3.

1TPF- This includes both FHWA PL-112 and FTA Section 5303 Funds. TxDOT will apply transportation development credits sufficient to provide the match for TPF. As the credits reflect neither cast nor work hours, they are reflected in funding tables.
IV. TASK 3.0 - SHORT RANGE PLANNING

A. Objective
To perform the required short-range transportation planning activities which will assist in the development of long-range and on-going projects; and, maintain coordination between the MPO and Victoria Transit to plan and address the needs of Victoria Transit.

B. Expected Products
The MPO will perform the following, as needed, for this task:
- Amendments to the FY 2023-2024 TIP,
- Analysis of and development of transportation planning performance measures,
- Assist Victoria Transit with transportation planning needs, including, future expansion and route needs.

C. Previous Work
In FY 2022 the Victoria MPO completed the following:
- Amendments to the FY 2019-2022 TIP,
- Developed and adopted the FY 2023-2026 TIP,
- Adopted FY 2022 Safety Performance Measures,
- Coordinated with TxDOT Yoakum District and Victoria Transit.

D. Subtasks

Subtask 3.1: Transportation Improvement Program (TIP)
The Victoria MPO will process any needed amendments for the FY 2023-2026 TIP as needed.

Subtask 3.2: Performance Measures
The MPO will continue to coordinate with TxDOT and Victoria Transit to develop the appropriate performance measures, as established in MAP-21, the FAST Act, and continued in the BIL. These performance measures have been developed following the action and direction from the U.S. Department of Transportation (US DOT) and TxDOT and, the MPO will continue to adopt and analyze performance measures for current and future transportation plans and programs.

Subtask 3.3: MPO Transit Planning
The MPO will continue to evaluate the existing transit system relative to local need and in context of the entire transportation system; and, also, continue to work with Victoria Transit on their transportation planning activities.

\(^1\)TPF- This includes both FHWA PL-112 and FTA Section 5303 Funds. TxDOT will apply transportation development credits sufficient to provide the match for TPF. As the credits reflect neither cast nor work hours, they are reflected in funding tables.
V. TASK 4.0- METROPOLITAN TRANSPORTATION PLAN

A. Objective
The Victoria MPO will continue to monitor the 2045 MTP, a model-based plan, to meet the transportation needs of the metropolitan area for a 25-year horizon, in accordance with federal, state, and local regulations.

B. Expected Products
The Victoria MPO will:
- Complete any amendments for the 2045 MTP, as needed; and,
- Update the travel demand model to reflect a base year of 2017.

C. Previous Work
The 2045 MTP was developed over the fiscal years 2019 and 2020 and was adopted by the Policy Advisory Committee in April 2020 and has only been amended once since its adoption. Updates to the MPO’s travel demand model began in FY 2022 and will continue until FY 2024. In FY 2022, the MPO completed the following for the TDM:
- Created and edited the MPO’s master roadway network,
- Created and edited the MPO’s transportation analysis zone (TAZ) geography, and
- Hired a consultant to complete the TDM demographic analysis and forecast.

D. Subtasks

Subtask 4.1: Metropolitan Transportation Plan Amendments
MPO staff will process and necessary amendments to the 2045 MTP.

Subtask 4.2: Travel Demand Model
MPO staff will continue to update the TDM, with data made available through the consultant hired to conduct the special study in Task 5, to reflect a 2017 base year, a 2022 interim year, and 2050 forecast year.

Subtask 4.3: Complete Streets Planning Activities
MPO staff will ensure that, at a minimum, 2.5% of PL funds will be used to increase safe and accessible options for multiple travel modes for people of all ages and abilities as prescribed in Section 11206 the Infrastructure Investment and Jobs Act. Under this task staff will:
- Compile and share data and information on active transportation;
- Evaluate the active transportation system to understand system performance needs to identify regional activities;
- Hold Public outreach sessions to share information and encourage active transportation;
- Work with other parties to advance and improve the program;
- Look for innovative ways to optimize funding for active transportation projects; and,
- Support and align statewide and regional active transportation strategies and actions.

VI. TASK 5.0- SPECIAL STUDIES

A. Objective
To conduct special studies that will support existing and projected local and regional needs.

B. Expected Products
The Victoria MPO will continue to assist in the development of the 2050 Demographic Study for the update to the MPO’s TDM and begin the Active Transportation Master Plan with Alliance Transportation Group for the City of Victoria. Finally, MPO staff will coordinate with TTI to develop a Safety Action Plan for the Victoria MPO Planning Area.

C. Previous Work
The MPO released an RFQ in April 2022 for a consultant to conduct the 2050 Demographic Study. This study will provide the MPO with current and forecasted demographic, employment, and housing data to the year 2050 and will be utilized in the MPO’s next long-range plan, the 2050 MTP.

D. Subtasks

Subtask 5.1: Demographic Study
MPO staff will continue to work with the consultant, Cambridge Systematics, to develop the sociodemographic analysis of the MPO planning area for the update to the 2050 travel demand model (TDM). The FY 2022 UPWP had allocated $5,000 to this task but was unused, as the contract did not begin until October 1, 2022, in FY 2023. The $5,000 from FY 2022 will be added into FY 2023 for a total of $75,000.

Subtask 5.2: Active Transportation Master Plan
The Victoria MPO will work with a consultant, Alliance Transportation Group (ATG), and the City of Victoria to develop an Active Transportation Master Plan (ATMP). The ATMP will provide the City of Victoria and the MPO with the necessary tools to develop and implement a safe and efficient multimodal transportation system that protects even the most vulnerable road users.

Subtask 5.3: Safety Action Plan
The Victoria MPO will partner with Texas Transportation Institute (TTI) to develop a data driven Safety Action Plan that will identify safety trends in the Victoria MPO Planning Area. The final Safety Action Plan will provide planned safety action and initiatives, prioritize projects and funding sources, provide strategies and countermeasures to increase road safety for all users, with the goal of reducing the number of fatalities and serious injuries within the Victoria MPO Planning Area. The plan will be developed using MPO staff time, reflected in Subtask 1.5, Subtask 2.3, and Subtask 5.3.

APPENDIX C
DEBAREMENT CERTIFICATION
(Negotiated Contracts)

(1) The VICTORIA MPO as CONTRACTOR certifies to the best of its knowledge and belief that it and its principals:

(a) Are not presently debarred, suspended, proposed for debarment, declared ineligible or voluntarily excluded from covered transactions by any federal department or agency;

(b) Have not within a three-year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public* transaction or contract under a public transaction; violation of federal or state antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

(c) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity* with commission of any of the offenses enumerated in paragraph (1)(b) of this certification; and

(d) Have not within a three-year period preceding this application/proposal had one or more public transactions* terminated for cause or default.

(2) Where the CONTRACTOR is unable to certify to any of the statements in this certification, such CONTRACTOR shall attach an explanation to this certification.

*federal, state or local

APPENDIX D

LOYING CERTIFICATION

CERTIFICATION FOR CONTRACTS, GRANTS,
LOANS AND COOPERATIVE AGREEMENTS

The undersigned certifies to the best of his or her knowledge and belief, that:

(1) No federal appropriated funds have been paid or will be paid by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form - LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, Title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.
