

Dear Lone Tree Acres Resident,

Great news! The City is planning a project to improve the drainage in your area and repair/upgrade streets that have deteriorated as a result of flooding.

Because the City may access federal funds to reduce the local cost burden of these improvements, we must obtain current income estimates and demographic data from all households in the service area.

You may respond electronically by following this link:

<https://www.surveymonkey.com/r/vtxlta>

The City would like to assure you that data from these responses will only be used for the purpose of documenting income levels and demographic data from the project's beneficiaries and that no personally identifiable information will be associated with the result, nor will any information be used for any commercial purposes.

If you have any questions or concerns about the project or the City's collection of this data, you may call Katy Connally at 361-485-3082 or email to kconnally@victoriatx.gov
