AMALGAM SEPARATOR MAINTENANCE LOG

Maintain this log as proof of required inspection activities to ensure proper operation of all amalgam separator device(s). Note dates and include documentation of all replacements of amalgam retaining containers, as well as the dates when dental amalgam is picked up or shipped for proper disposal. Maintain separate inspection logs for each separator unit installed at the facility. Retain records of all bills of sale or invoices from third party vendors servicing all amalgam separator device(s).

Date:	Person Conducting Inspection	Item Inspected and Condition	Repair/ Service Requirements	Date of Amalgam Retaining Container Replacement
