Addendums are available online at [https://www.bidnetdirect.com/texas/city-of-victoria](https://www.bidnetdirect.com/texas/city-of-victoria). No verbal explanations or interpretations will be binding. The City of Victoria does not assume responsibility for the receipt of any addendum sent to Respondents.

PART III – ATTACHMENTS

ATTACHMENT A – SCOPE OF WORK

The City of Victoria is seeking proposals from qualified firms to conduct an evaluation of existing infrastructure and capacity for connectivity, an enhanced network feasibility analysis, and short and long-term implementation strategies for an improved broadband network in Victoria and the surrounding Golden Crescent Region.

The City has identified key governmental, medical, economic development, and educational institutions that provide essential services to the residents, businesses, and guests of Victoria. All aspects of this project will incorporate the needs, goals, and plans of these entities.

PHASE 1 – EXISTING CAPACITY FOR CONNECTIVITY

Within Victoria County, there are 11 known providers of internet service as of July 31, 2020, many of which are active within the city limits. However, approximately 29% of the population is currently without a subscription to the internet.

This phase of the project will identify those areas for which there is a lack of access and those for which there is a lack of adoption. During this phase, there will also be an assessment of existing infrastructure, including but not limited to fiber and cellular installations.

The assessment of existing capacity for connectivity should encompass the needs of the region and compatible infrastructure with nearby communities and/or organizations.

The City of Victoria has secured a partnership with Connected Nation that may be used by the Respondent, as appropriate, including in preparation of this proposal. Prior to the execution of an agreement between the Respondent and the City, the use of Connected Nation or any other contracted partner of the City will be at the expense of the Respondent.

Key goals of this phase are:

- To develop a complete picture of the population and their internet usage needs through demand analysis
- To identify disparities within the population that contribute to lack of connectivity
- To evaluate existing infrastructure for usefulness and longevity

PHASE 2 – ENHANCED NETWORK FEASIBILITY

Building upon the work of Phase 1, this portion of the project seeks to answer the question of what may be possible and when. This phase should include, at a minimum:

- A detailed project timeline
- An assessment of regulatory and geographic barriers for network development
- An assessment of the feasibility of utilizing the latest technological advancement, including the latest wireline and wireless technologies.
Respondents should provide justification for recommended technologies, including but not limited to 5G, fiber to the home, and other emerging technologies.

Minimum standards for broadband connectivity (25 mb/s download & 3mb/s upload) must be met, but preference will be given to those that exceed this dated standard.

- Identification of technologies that will promote or improve
  - residential service quality
  - retail and industrial development,
  - equity in education, and
  - advancement of telehealth

- Development of a phased network architecture plan, potentially including
  - installation and the associated costs of publicly available Wi-Fi in Downtown Victoria, the park system, the public transit system, and other high-traffic areas
  - incorporation of lifeline packages for medical purposes either through associated internet providers or through available open access networks, as applicable,
  - open-access networks for governmental, educational, and medical use
  - expandable public safety communications technologies that may be adopted throughout the region, including interoperability with FirstNet

- Engagement of potential service providers who may make use of the improved network to increase competition among services and affordability for customers
- Identification of potential customers, and
- Development of cost structures for customers

There are many scenarios for which the City would seek to ensure sufficient speeds to accommodate the required bandwidth for the activity. Those include, but are not limited to:

- Multiple students participating in an online classroom
- High resolution video calls for telehealth consultations
- Business collaboration with remote workers and other satellite locations

Those Respondents that demonstrate creativity and innovation in proposed solutions geared toward Smart City development and anticipated future needs will be ranked higher by the evaluation committee.

**PHASE 3 – IMPLEMENTATION STRATEGY FOR AN ENHANCED NETWORK**

After identifying the needs of the community and crafting feasible solutions, this phase should result in the development of functional short and long-term business plans for the construction and development of an improved broadband network in Victoria and the surrounding Golden Crescent Region.

This business plan should include all reasonable funding opportunities and identify anticipated opportunities for revenue, including but not limited to the potential for profit sharing between the development partner(s) and the City of Victoria.
This business plan should also clearly delineate the roles and responsibilities of the City and its development partner(s). These components may include design, procurement, construction, administration, maintenance, and upgrades, among other things. Respondents are encouraged to include a digital literacy component and any other proposed solutions to the lack of adoption in Victoria.

Finally, preference will be given to Respondents who can demonstrate an ability to go beyond the business plan and assist the City of Victoria with the construction and activation of the improved broadband network.
ATTACHMENT B – GENERAL TERMS AND CONDITIONS

AGREEMENT: This set of Terms and Conditions is incorporated into an Agreement between the City of Victoria, Texas and _________________________ (hereafter Development Partner), in its entirety and, upon execution of the Agreement by both Parties, constitutes a portion of the Parties’ Agreement. No change, modification, or revision to the Agreement shall be binding unless made in writing and signed by the Parties.

DEFINED TERMS: Where utilized in this Request for Proposals, requirements/specifications, or elsewhere, the following defined terms shall have the meaning assigned to them:

1. “Agreement” means the contract between the City and the Development Partner.
2. “Contract Documents” means the Agreement, its terms and conditions, the technical specifications, requirements, specifications, drawings, addendum, and amendments, all of which comprise the full agreement of the Parties.

ACCEPTANCE: Acceptance of this Agreement shall be deemed effective upon execution of this Agreement by both Parties.

COMPLETION: TIME IS OF THE ESSENCE IN THE PERFORMANCE OF THIS AGREEMENT. If Development Partner fails to effect delivery or performance of the associated services required by City in accordance with the project schedule, delivery schedule, or other time requirements as communicated to Development Partner in the Agreement or its attachments, in addition to its other rights and remedies hereunder, City shall have the right to terminate this Agreement by notice effective when received by Development Partner or after the expiration of five days from the date of mailing of such notice, whichever occurs first. Such termination shall be effective as to goods not yet received by City or services not yet rendered, regardless of their transit status. Thereafter, City shall have the right to purchase substitute goods or services elsewhere and charge Development Partner with any or all losses, costs and expenses, including, but not limited to actual, consequential and incidental damages, reasonable attorneys’ fees, and engineering or consulting fees incurred by City by reason of such delay or termination.

PRICES: Development Partner warrants that the prices shown hereunder are the prices quoted to City at the time of the Agreement and include all costs incurred by Development Partner for shipment of all goods included in this Agreement. In the event of any price reduction between execution of the Agreement and delivery of the goods, City shall be entitled to such reduction.

INSPECTION: City shall have a reasonable time after delivery or performance to inspect the items delivered or the services performed. All such items or services must conform to the specifications, instructions, drawings and data set forth on the face hereof. City may reject and refuse acceptance of any items or services which do not so conform. City shall notify Development Partner of such rejection by either notice in writing and by the return to Development Partner of the rejected items at Development Partner’s expense and risk.

REJECTION OF MATERIALS AND WORKMANSHIP: City shall have the right to reject
furnished materials and workmanship which are defective or otherwise fail to meet the requirements/specifications included in the Agreement, including specifications, the drawings, and all other documents (the “Contract Documents”) and require their correction. Rejected goods shall be satisfactorily replaced with proper materials without charge to City, and Development Partner shall promptly segregate and remove rejected materials from the Project site or point designated. If Development Partner does not correct defective workmanship or replace the rejected materials within a reasonable time, City may do so and charge all costs, damages, fees, and expenses to Development Partner including, without limitation actual, consequential and incidental damages.

SHOP DRAWINGS, SUBMITTALS, QUALITY OF GOODS: Development Partner shall confirm that all materials are in strict accordance with the Contract Documents or requirements published by City. Where required, prior to shipment and/or installation, Development Partner shall provide shop drawings or submittals sufficient to demonstrate compliance with this Agreement and the Contract Documents for City’s review and approval. All goods and work of Development Partner shall conform to all applicable express and implied warranties and be of a good and workmanlike manner. A failure of City during the progress of the work to discover or reject materials not in accordance with the Contract Documents shall not be deemed an acceptance thereof or a waiver of defects therein. No payment, use of goods provided by Development Partner, or occupancy of the Project site by City shall be construed as an acceptance of materials which are not strictly in accordance with the Contract Documents.

RESPONSIBILITY FOR COMPLETION: Development Partner represents that it has examined the requirements/specifications, schedule, plans, drawings, and other documentation in the Contract Documents which Development Partner acknowledges are full and complete and are sufficient to enable Development Partner to determine the cost of the materials and has fully acquainted itself with all conditions relevant to the work and materials on the Project site and assumes the risk of any variance between the actual conditions and those set out in Contract Documents. Any failure by City at any time, or from time to time, to enforce or require the strict keeping and performance of any of the terms or conditions of this Agreement shall not constitute a waiver of such terms or conditions and shall not affect or impair such terms or conditions in any way, or the right of City at any time to avail itself of such remedies, as it may have for any breach or breaches of such terms or conditions.

WARRANTIES / GUARANTEES: Development Partner expressly warrants that the items and services covered hereunder shall be free of defects in workmanship and shall strictly conform to applicable specifications, instructions, drawings, etc. These warranties shall be in addition to all warranties, express, implied or statutory. All warranties shall run to City, its customers and subsequent owners of items or services covered hereunder.

INDEMNIFICATION: TO THE FULLEST EXTENT PERMITTED BY LAW, DEVELOPMENT PARTNER SHALL INDEMNIFY, DEFEND AND HOLD HARMLESS THE CITY OF VICTORIA AND ITS OFFICERS, DIRECTORS, AGENTS, REPRESENTATIVES, EMPLOYEES FROM AND AGAINST ALL CLAIMS, LOSSES, EXPENSES, COSTS, DEMANDS, SUITS, CAUSES OF
ACTION, AND DAMAGES, INCLUDING WITHOUT LIMITATION, ATTORNEYS’ FEES, ENGINEERING OR OTHER CONSULTANTS’ FEES, OF ANY KINDS RESULTING FROM DEVELOPMENT PARTNER’S PERFORMANCE OR NONPERFORMANCE OF ITS OBLIGATIONS PURSUANT TO THIS AGREEMENT, FAILURE OF GOODS, OR ACTS RESULTING IN BODILY INJURY OR PROPERTY DAMAGE, BUT ONLY TO THE EXTENT OF THE NEGLIGENCE OR OTHER FAULT OF DEVELOPMENT PARTNER, ITS AGENTS, REPRESENTATIVES, EMPLOYEES OR SUBCONTRACTORS OF ANY TIER.

NO DAMAGES FOR DELAY: Development Partner shall have no right to claim any damages against City, including consequential or incidental damages, as a result of delay. Extension of time for Development Partner’s performance is conditioned upon City’s approval of an extension of time to the contract or delays claimed by Development Partner. Failure of Development Partner to make a claim promptly shall be deemed a waiver of the right to a claim for an extension of time for the particular cause.

TERMINATION FOR CAUSE: Prior to termination for cause, each party shall be required to give the other party prompt written notice upon learning of any breach or default under this Agreement. The defaulting party shall have twenty (20) business days from the date of receipt of the notice of default to provide a remedy acceptable to the other party.
